Stereophonic Electronic Stethoscope

The ACU-STS from ACUSTEK is the latest and most advanced Stereophonic Stethoscope on the market to-date. It allows highest possible quality listening through various construction fabrics such as walls, ceilings, plaster, brick, doors.

PROVEN EFFECTIVENESS: In operations with police, military and EOD units around the world.

ROBUST CONSTRUCTION: Designed for field use, robust and precision made metal construction.

RECORDING: Full speed USB connection allows the use of all fully uncompressed pure audio to be recorded. This is a unique feature not available in any other Stereophonic Stethoscope.

SMALL & LIGHTWEIGHT

SIMPLE TO USE: Just attach the heads with supplied screw dowels or by the use of tack or any sticky product and get the outstanding listening results.

FULL TACTICAL SET: Complete with its own carrying case, quality headphones, batteries, amplifier units, sensors and dowels, the product is ready to go on operation anytime.

LATEST UPGRADE: Now equipped with the latest accelerometer sensors with re-enforced cables, gold connectors IP67 Rated.

ACU-STS ships complete in a rugged Pelican case with all accessories.
